Plaintiffs and Respondents

Defendants and Appellants From 2d Judicial District Court, Wash-

oe County. Messrs. Cheney and Massey, attorneys

.for Plaintiffs. Alfred Chartz, attorney for Defend-

DECISION The respondents have moved to dismiss the appeal from the judgment because it was not taken within one year, and to dismiss the appeal from the order of the district court denying 8,255 (a) appeliants motion for a new trial, also to strike from the records the statement on motion for a new trial, upon the ground that the statement was not filed within the time prescribed by law. The appeal from the judgment is dismissed because not taken until March, 1905,, more than one year after its rendition on June 22. 1963. On that day Judge Curler of tal and net surplus 1,707,194 (9) the Second Judicial District court who had tried the case at Reno and rendered the decree, made in open an order "that all business and all cases and proceedings that have not been completed or in the process of Other expenditures 846,145 92 completion, and all new business that Total expenditures 1.05 2,389,609 09 may be brought before the court durmay be brought before the court during the absence of the presiding judge. be referred to Judge M. A. Murphy of the first judicial district court of the State of Nevada, and that he be requested to try, determine and dispose of all cases and butiness now before the court in the absence of the judge of this district." Pursuant to this request Judge Mur-

phy occupied the bench in Reno until ment. July 31, 1903, when a recess was taken until a further order of the court There was no other session until Judge Curier's return on August 17th. On July 17th, Judge Murphy, in open court in Reno, made an order allowing plaintiff until August 15th in Assets 2,216,713 ss which to file objection to findings. and prepare additional findings.. On August 3d Judge Murphy at Carsor City, and within his own first judicial district, by an ex parte order made without affidavit of Judge Curdefendants until September 15, 1903, within which to prepare, file and 402,638 02 serve their notice and statement on from the order overruling the motion Disbursements 1,665,636 64 motion for a new trial. We think under the minute order and circumstances related, the power inherent in Judge Curler to extend Misks written 509 946 742 to the time of filing the notice and state- Fremiums theren 5,249,402 05 ment became conferred upon Judge Losses incurred 1.864,096 26 Murphy during the former's absence. and that Judge Murphy became the Judge in charge, endowed with the au Losses paid 1.834 52 thority to grant the extension without | Losses incurred the presentation of the affidavit showing the absence or inability of Judge Curler, as the rule requires before the order can be made by a Judge not

having the business in charge. Judge Curer's absence was presumed to continue until his return was shown and consequently Judge Mur phy's authority based upon that absence would likewise continue. It is said that under the first statute mentioned, the language that "the court or judge before whom the case was tried" may extend the time invalidates the order, because Judge Mur phy was not the judge before whom it was tried, and that he was not the court after he returned to Carson City where he made the order. In a nar row technical sence this may be true. if we do not look beyond the strie your order and receive your goods letter of the statute. But not so if we consider the intent and purpose of Risks written 433.500 30 Losses paid the enactionet, and construct it in the Highly of remoth as applied to the or-

dinary rules of practice, and give due weight to the later section. Appar- Notic ently the object of this legislation was to f to prevent the granting of extensions the and the meddling of judges in cases which they had not tried or which 12th uwere not properly under their control, with a and yet in the case of the absence or Statute inability of the judge who tried the and I action, to grant relief, or allow ex- County tensions to be made to deserving little va a. 1 gants

The assument advanced concedes approprithat if Judge Murphy had gone to State or Reno and entered the order in open oe man court it would have been good, but under this contention if he had stepped points n through the door into the chambers in T 11 ? and made it, it would have been void, and here Orders extending the time for filings and the are business usually, or properly to N E t transacted in chambers and under T 15 N K Section 2573 can and ought to be and planmade as effectually in any part of the electrical State by the judge having the case in of sale vicharge, as if made by him in cham- 1, 1996, 100 bers or in open court. Judge Murphy before June was merely netting for Judge Curler by acting during his vacation, but by analogs on or tothe construction claimed, if adopted, would, in every case where a district judge dies, resigns or is succeeded. invalidate the orders extending time under section 197 made out of court by his successor in office, although they are of that character ordinarily granted in chambers, "This would mean a distinction and two rules for filing orders of the same kind. and that the judge who had tried the same now a cause as Judge Curler had done in any nount of a this instance, could make the order in test our parameter chambers while his specessor could so make it only in the cases tried by excursions the him, and would have to be in court of a Marriage -to make these simple orders extend- ones though a ing time in actions which had been and the almost o previously tried by another judge.

Appellants desired and were entired personnel accombine ed to the time granted for the purchase manager to pose of enabling them to secure from a secure from the court reporter who had left that State, a transcript of the testimony, given on the trial, which would enable them to properly prepare the state | by daying to then

Under Section 2573 Judge Curfer ages to all persons could have made an order granting them the extension at any place in the State, and as during his absence | he shid to give you Judge Murphy was requested by the at at the terms in Court minutes to attend to all bust- tare and sound for franess for him, we conclude that he was empowered to make the order at Ch. son City as he did, and as Judge Curler could have done, and that it was not necessary for him to make the trib | 6.5 Stacker Street See to Reno and undergo the formality of opening court to enter ex parte orders ler's absence or inability, granted the simply extending time, such as are usually made out of court.

> The motion to dismiss the appeal Recognis for a new trial and to strike out to.
